I'm a JS lover from Mexico City with 6+ years of experience specializing in front-end technologies. I build web apps with a focus on smooth UX that users can enjoy. I put special care in writing nice and clean code that is easy to maintain.

WORK EXPERIENCE

React Developer

Grio Mexico | Jul 2019 - Today

- Develop a browser-based responsive web app using React and Material UI.
- Build a library of reusable React components implementing Redux as state manager.
- Reduce app's loading time by virtualizing render of large data sets.
- Boosted app's performance by inspecting code's impact on React's lifecycle..
- Set and evaluate periodic goals alongside with stakeholders.
- Reduce app's loading time by virtualizing render of large data sets.

Angular Developer

Globant Mexico / Sourceability | Oct 2018 - Jul 2019

- Improved user experience by redesigning widgets to be interactive and facilitate the user to manipulate data and rearrange layouts.
- Reduced app's initial loading time by better bootstrapping Angular and better managing DOM manipulation.
- Followed Scrum methodology.

Javascript Developer

Globant Mexico / Zaplabs | Sept 2017 - Oct 2018

- Developed web tools to consolidate the administration of the brand's subsidiaries' blogs under a single site.
- Developed new features for blogs using plain Javascript and ES6.
- Followed Kanban methodology.

React developer

Globant Mexico / DWA Nova | Sept 2016 - Aug 2017

- Developed a cross-platform desktop app for managing Adobe Photoshop and Illustrator assets using frontend technologies.
- Created desktop app with React + Redux and Electron, and Adobe plugin with HTML/Javascript.
- Integrated with Node server for local file storage through sockets with WebSockets and socket.io.
- Unit tests done with Mocha, Chai, Sinon and Enzyme.

AngularJS Developer

Globant Mexico / United Airlines | Nov 2015 - Sept 2016

- Developed a control panel to administrate personnel and daily tasks using AngularJS, ES6 and SASS.
- Created widgets with a focus on reusability to share components among projects.
- Automated tasks to build environment and scaffold components using Webpack and Gulp scripts.
- Followed Scrum methodology.

.NET Developer

Indigo Smart Software Development | Aug 2015 - Nov 2015

- Designed and created an API for processing payments in an e-commerce application using .NET.
- Maintenance of existing RESTful web services of a flight ticket booking application.

Instructor

KMMX | 2014 - 2015

- Taught courses about HTML5 APIs and features, AJAX with PHP and Java Fundamentals to students ranging from beginners to IT specialists.
