

leonardo muñoz

I'm a developer based in wonderful Mexico City. I create web apps with a focus on a smooth user experience and implementation of best coding practices. I'm constantly learning new technologies to stay relevant and bring the best of engineering and innovation together.

WORK EXPERIENCE

Oct 2018
|
Today

Lead Angular developer

Globant Mexico / Sourceability

- Improved user experience by redesigning widgets to be interactive and facilitate the user to manipulate data and rearrange layouts.
- Reduced app's initial loading time by better bootstrapping Angular and better managing DOM manipulation.
- Followed Scrum methodology.
